Bottle Capping Machine

Product Image

Description

These machines are suitable for both inner and outer capping. This machine is capable of leakproof locking/capping, rotating shell, turning cap, and embossing in glass, plastic, porcelain, and polyester. They are extremely productive and can help you enhance your output. These devices are built to last, with a sturdy exterior shell and long-lasting interior components. These bottle capping machines have stainless steel bodies and are resistant to a variety of heavy-duty exterior impacts.

High Quality product for use in Pharmaceutical Industry and Laboratory. Following is made in compliance with International Quality Standards and are manufactured using high-grade components and materials.
