Coating Pan

Product Image

Description

This pan is often referred to as conventional coating pan equipment. Mixing occurs in this pan as a result of the angle of inclination and the shape of the pan, as well as pan rotation. This equipment has traditionally been used for tablet coating/sugar coating by including proper air control and spraying technologies.

High Quality product for use in Pharmaceutical Industry and Laboratory. Following is made in compliance with International Quality Standards and are manufactured using high-grade components and materials.
