Cork Borer

Product Image

Description

Cork Borer is made of brass that are tested for durability, accuracy and precision. These are often used in a chemistry laboratory for cutting a hole in a cork or rubber stopper to insert glass tubing. These borer come in a set of 6 (nested sizes) along with a solid pin for pushing the removed cork (or rubber) out of the borer.

Features:

Made of plated sharpened brass tubing with attached handles including a steel punch.
