Fix Frame Projection Screens

Product Image

Description

Projection system: Orthographic Projection

Appearance shapes: Like the photo frame (aluminium alloy and surface flocking).
With the aluminium alloy and surface flocking frame, noble and elegant, similar to the flat television, can feel the professional cinema sight experience at home. Use the special flexible material, then add the left, right, top, and bottom position of the integrative and complanate location in order to make all around the screen with same pressure, can effectively eliminate the “V “type ripple at the centre area. Make the surface of the screen like a flat mirror.

Diagonal		width×height		Scale	Flexibility PVC matte white
