# Fluorescent Lighting

## Product Image

---

## Description

---

360 Fluorescent Lighting(Circular Fluorescent Vision Illuminator) is a laboratory and industrial grade fluorescent lighting system powered by a high frequency driver. It provides bright, flicker free illumination for a variety of application needs including assembly, inspection, imaging, microscopy and machine vision. The circular fluorescent lamp provides 360° of uniform, shadow-free illumination on the specimen. This cool illumination minimizes eye fatigue in applications that require intricate differentiation of colors and details for prolonged periods of time. This model incorporates a lightweight polycarbonate housing

which stays cool to the touch and does not radiate heat to the illuminated area.
