# Fly wheel

## Product Image

## Description

Comprising of carefully machined and balanced cast iron wheel and steel spindle is supported on the ball bearings in strong iron brackets. The sides of wheel are smoothly painted. The top of wheel is chrome plated and is marked with a thick line. A pointer is fixed to one of the brackets.

### Technical Specification:

The flywheel consists of a heavy /massive circular disc 8" wheel fitted with a strong axle projecting on either side or counter. The axle is mounted on ball bearings on two fixed

supports. There is a small peg on the axle. One end of a cord is loosely looped around the peg and its other end carries the weight-hanger of 100 x 5 gram.
