Human Heart

Product Image

Description

Two-part model is enlarged upto 2 -3x than original size, consisting of four parts left auricle and ventricle, right auricle and ventricle. It shows atria with auricles, the coronary sulcus,

the coronary and pulmonary blood vessels, and segments of the oesophagus, trachea, aorta, and vena cava. To study the internal structure of the heart remove the anterior wall, including the entrance points of the superior and inferior vana cava and flexible tricuspid, mitral and aortic valves. It represents a portion of the pericardium. This model is mounted on a base, appropriately coloured & nicely finished. Numbered with key card.
