Medicine Cup

Product Image

Description

Material: Polypropylene

These transparent polypropylene cups can be used to measure different volumes of medicines to be administered. The inbuilt graduation make measuring very easy.

Disclaimer

The Products details given on this page are indicative in nature and JAPSON reserves the right to change them without prior notice. Buyer is also requested to re-check the specifications and other features of product at the time of order as product development is a continuous process and minor modifications may be made to design based on latest availability, process and design.
