Mixer Granulator

Product Image

Description

Our Mixer Granulators are specifically built to fulfill the requirements of tablet production technology. It contributes to great mixing and uniform granules while lowering operational

costs and increasing production. Better mixing and granule size control result in quicker tableting rates with greater quality and fewer rejects. The components are simple to disassemble, properly clean, and quickly reassemble.

High Quality product for use in Pharmaceutical Industry and Laboratory. Following is made in compliance with International Quality Standards and are manufactured using high-grade components and materials.
