# Oven, Hot Air, Memmert Type, Aluminium, Digital Controller with Fan

## Product Image

## Description

---

Hot air ovens are suitable for temperature up to 250°C for chemicals, glassware in laboratories, research institutions, industries, hospitals & R & D centers. They are used in various applications like heating, drying, sterilizing & baking.

**Construction :** All external cases are made of mild steel, with strong seamless welding & covered with a thick layer of stoved epoxy polyester paint. This provide a strong, highly screech & heat resistant surface for a long lasting attractive finish. Internal surfaces (including the doors) are manufactured from aluminium, with great care in order to eliminate sharp edges. The double walled chamber is filled with high grade insulation to prevent heat loss. Elements are of the sheathed black type. They are put inside beads, placed at the bottom & in both the side ribs for uniform temperature. The door closes on to an asbestos-gasket. The shelves slide neatly into the fixed runners. The fixed ventilators are provided on both sides of the wall. The oven is mounted on four rubber feet to prevent slipping. The control panel houses a main On/Off switch & indicator lamp. Oven is provided with digital temperature controller and indicator. Provided with circulating fan for achieving uniform temperature throughout the chamber.

### Particulars

### Catalog No.

Oven, Hot Air, Memmert Type, Aluminium, Digital Controller with Fan, 355 x 355 x 355mm, 800 watts, 45 litre, 2 shelves

JA22061

Oven, Hot Air, Memmert Type, Aluminium, Digital Controller with Fan, 405 x 405 x 405mm, 1000 watts, 65 litre, 2 shelves

JA22062

Oven, Hot Air, Memmert Type, Aluminium, Digital Controller with Fan, 455 x 455 x 455mm, 1500 watts, 95 litre, 2 shelves

JA22063

**Note:** Custom-made ovens to your specific requirements like size, material, control mechanism, configuration, shelves or special needs available on demand.
