Over Head Projector, Deluxe, ABS Body (Big), with Vari-Focal Technology

Product Image

Description

3-Element Vari Focal technology

- Overhead projector are equipped with a vari focal objective. In order to focus the projector image using a vari-focal objective the focal length is changed by adjusting the mobile lenses.
- Thus the distances between the objective and the working top as well as the projection angle remain constant.

Advantages:

- At any image size the projection is free of coloured fringes. Neither the position of the objective nor the lamp housing need to be adjusted.
- Optical System:** Excellent contrast through vari-focal lens and Optimized brightness due to an anti glare fresnel lens.
- Projection platform:** 285x285mm

Features:

- Rust proof, shock proof, durable, all ABS body.
- Projector equipped with twin halogen lamps. Projection lamp with longest life, easy availability, low voltage and high intensity 2x24V/250W. System with a lamp quick-changer which can be easily operated from outside. Should a lamp fail during a presentation the spare lamp can be quickly utilized with simple turn of the knob. The projector does not have to be opened.
- Fine focusing with rack & pinion mechanism.
- Economy switch DIM/Bright.
- Whisper quiet cooling twin fan maintains low temperate on the stage.
- Easy to open working top, push the lock and open to working top.
- Safety interlock system, automatically cut off power of unit while replacing lamp.
- Overheating protection device.
