Silver Estimator Paper - Rolls & Strips

Product Image

Description

Superior quality Silver Estimating papers have been specially designed to estimate the quantity of silver present in photographic fixers. The colour chart supplied with the papers give the silver concentration in grams per litre. This is of particular necessary in connection with hospital X-ray processing machines where silver recovery units are used. The photographic industry is a prime user of silver and there are many application for silver estimating paper in both colour black and white processing.
