# Simple Pascal Law Experiment (Pressure String)

## Product Image

---

## Description

---

For showing that pressure is transmitted equally in all directions. It consists of a hollow metal brass/glass ball with small holes along one circumference and a branch tube with piston. When held with the holes in a horizontal plane and piston is pushed in, water will stream out at the same distance from each hole.

Custom made configuration is available for developing countries or Ministry of Education Tenders.
