Stop Watch, Mechanical

Product Image

Description

This is first quality, precision made jeweled movement watch in attractive chromium plated case. The face of the stopwatch is transparent for easy reading of graduation and figures. It has an arrangement for the start and stop of the watch. There is a lever at the top of the

body when this lever pressed for the first time, the watch starts, when the same lever is pressed for the second time, the watch stops. A third press on the lever brings the watch to zero reading. This stop watch reads 1/10th of a second. It comes with Least count of 0.1 second.

A quality product from JAPSON ideal for use in School Laboratories in developing countries of Asia, Africa and South America. Standard specifications for school laboratory use. Ideal mix of Quality and Economy. Other configurations and superior quality available for specific use or for developed countries. Our products are regularly supplied in Ministry of Education Tenders from India for School Physics, Chemistry, Biology, General Science and Mathematics Laboratory projects.
