Tablet / Capsule Printing Machine

Product Image

Description

These high-end Capsule Printing Machines are simply operated by applying revolutionary variable frequency control systems that are well-matched with other machines, making them suitable for product printing on capsules. They are also available in a variety of sizes and specifications to accommodate the desired production.

Depending on your needs, our machines may print one-sided or two-sided, and in whatever color combination you choose. We employ rotogravure offset printing for the greatest print quality at high output rates, and we supply inkjet tablet printing technology for things that require non-contact marking.

High Quality product for use in Pharmaceutical Industry and Laboratory. Following is made in compliance with International Quality Standards and are manufactured using high-grade components and materials.
