# Test Tube Stand (Wire Pattern)

## Product Image

---

## Description

---

**Material:** Polypropylene

An economical substitute for wire racks, here are these submersible autoclavable racks which are stackable when empty. These are available in different colors and are made of a special blend of polypropylene that makes it sink in a water bath and maintain their stability even in the agitated water. These space saving racks can easily be disassembled for cleaning purpose. The base is in the form of a grid with square opening and has fold up side and end bars that lock into rack tops.
